How To: Create a Twitter Feed Widget (and find the embed code)

The MIT Alumni Association sets up all new class, club and group websites with the MITAA general Twitter feed. This Twitter feed can be replaced by a specific class, club or group Twitter feed. Once you have the embed code, please send this information to your staff liaison. The MIT Alumni Association will replace the Twitter feed and confirm when this has been updated. To create a Twitter feed widget and to get the embed code, please follow the below instruction.

- 1. Go to: <u>https://twitter.com/settings/widgets</u> to log into your Twitter account.
- 2. Click Create New.

- 3. On the **User Timeline** tab, set up the Configurations.
- 4. Click Create Widget.

5. Click Save Changes.

- 6. Under **Preview** of timeline, the HTML embed code will appear.
- 7. Copy this HTML embed code and please email your MIT Alumni Association staff liaison with this information.
