

## Undergraduate Students and Financial Aid

MIT believes passionately in taking on the world's great challenges, and to do that, we welcome exceptionally talented and motivated students from every financial background. We want nothing to stand in their way. Thanks in part to the generosity of our scholarship donors, the 2022-23 financial aid program includes enhancements to make MIT tuition-free for families at a higher income threshold and increases financial aid dollars to reduce the amount paid by most families—making an MIT education more affordable and enabling students to pursue their biggest dreams.

### CLASS OF 2026 PROFILE

**33,767** applicants  
**4%** offered admission
